

OUR PRIVATE TOURS IN MARRAKECH

IN ROOM MESSAGES

For your massage to be done in the best conditions, it is important that you heat the room in which you will be installed.

It would not be shivering under the expert hands of the therapist. For optimal relaxation, you can also put a soft music. Evasion Guaranteed! What's more, you are at home: you decide the atmosphere that appeases you most. Do not worry too much nevertheless, the goal is to relax. The therapist at home will install everything necessary upon arrival.

Once the material is ready, everything goes like a cab. After a period of preparation for the massage, the professional cares for 1h, 1h30, 2h according to the needs of the client.

Why prefer massage at home? Avoid traffic congestion and other constraints. The advantage of home massage is that you do not need to move.

Each session will bring you a relaxation of quality. Look at your daily routine. There are rare moments when you can actually ask yourself and simply enjoy the present moment without looking at your emails or taking care of your children. The massage effectively relaxes your muscles. The therapists know how to unravel the knots you tighten every day. In other words, your body is refurbished!
